proudly presents

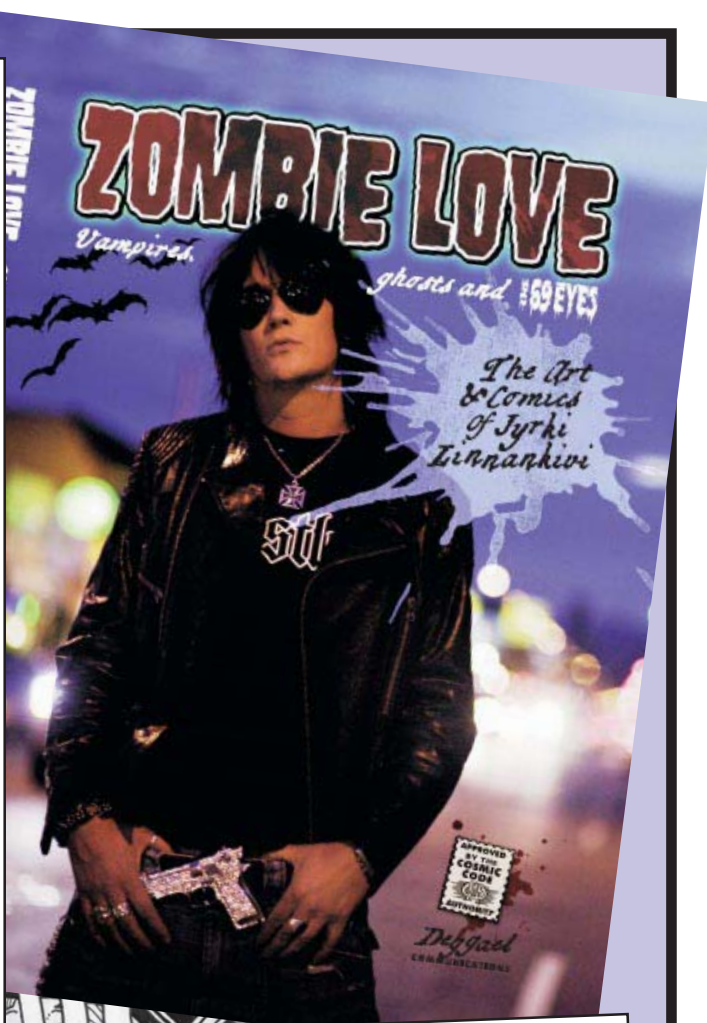

Rock'n'roll comics? Vampire rock'n'roll? Vaudou ligne claire? There's no difference, as you'll soon find out in the decadent and psychedelic world of **Jyrki 69!**

Though a graphic punk rock artist and an underground cult comics creator ever since the mid 80's, **Jyrki Linnankivi** is best known as **Jyrki 69**, the singer and mastermind of **The 69 Eyes**. While **Zombie Love** offers an exclusive peek into the esoteric mythology of the world famous **Helsinki Vampire**, it is first and foremost a long-overdue retrospective of his stunning vision of comics, rock'n'roll vampires, horror and sci-fi movies — Goths, glam punks and fetish freaks in the spirit of the 80's Helsinki underground rock scene. For the first time, this album collects the gems of his graphic **ART** — some unpublished, some originally seen in obscure Finnish fanzines and underground comic books more than a decade ago.

With English translations.
